Professional Summary

B.Tech CSE graduate (2025) with a strong foundation in **Java, SQL, and full-stack web development**. Hands-on experience across the **software development lifecycle** — design, development, testing, and troubleshooting — through internships and academic projects. Skilled in **problem-solving, debugging, and analytical thinking**, with exposure to **enterprise CRM systems, REST APIs, databases, and cloud-based platforms**. Seeking to contribute as an **Associate System Engineer at IBM**, leveraging technical skills and adaptability to build innovative solutions in hybrid cloud and AI environments.

Education

Academy of Technology, Hooghly (MAKAUT) B.Tech in Computer Science and Engineering	Jul 2025
Bharati Bhaban High School, Katwa Higher Secondary (WBCHSE)	Jun 2021
Kashiram Das Institution, Katwa Secondary (WBBSE)	May 2019

Professional Experience

Quality Assurance & Monitoring Intern <i>Eloelo (Greenhorn Wellness Pvt. Ltd.), Bengaluru</i>	Dec 2025 – Mar 2026
• Evaluated and validated high-volume conversational AI datasets, performing structured root cause analysis (RCA) on defects and escalating findings to engineering teams. • Maintained 100% traceable defect logs with thorough documentation of findings, actions, and resolutions — aligned with SDLC and defect lifecycle management best practices. • Collaborated daily with cross-functional product and engineering teams to define quality standards in an Agile environment; performed UAT prior to each release.	
Salesforce Developer Virtual Intern <i>SmartBridge – SmartInternz (AICTE & Persistent Systems), Remote</i>	Jul 2024 – Aug 2024
• Developed Apex triggers, Apex classes, Lightning Web Components (LWC), and SOQL queries; automated workflows reducing manual processing time. • Gained practical exposure to enterprise CRM systems, Salesforce data model, and cloud-based SaaS platforms, applying OOP and SDLC principles throughout. • Collaborated in an Agile team environment, assisting in requirement analysis and troubleshooting to optimize CRM workflows.	

Technical Skills

Programming Languages Java, SQL	Web & Full Stack Development HTML, CSS, React.js, Node.js, Express.js
Databases MySQL, MongoDB	Tools & Platforms Git, GitHub, Postman, Salesforce, MS Excel
Concepts & Methodologies OOP, DBMS, SDLC, STLC, Debugging	Enterprise & Cloud REST APIs, SaaS, CRM (Salesforce), Agile
Soft Skills: Analytical Thinking, Problem-Solving, Written & Verbal Communication, Teamwork, Adaptability, Continuous Learning	

Key Projects

Doctor Appointment Booking System (MERN Stack)

Live Link

- Built a **full-stack SaaS-style healthcare platform** with JWT authentication, role-based dashboards for doctors and patients, and secure **REST API** integration.
- Designed and tested APIs using **Postman**; deployed on the cloud (Render) with a scalable backend. Tech: *React.js, Node.js, Express.js, MongoDB*.

Hotel Reservation System (Java + MySQL)

GitHub

- Designed a booking system with **JDBC/MySQL integration**, OOP architecture, SQL exception handling, and reservation/availability management. Tech: *Java, JDBC, MySQL*.

ATM Simulator System (Java Swing)

GitHub

- Developed a desktop banking simulator with **authentication, transaction processing** (withdrawal, deposit, balance inquiry), and modular OOP design. Tech: *Java, Swing, File Handling*.
